

## **ADA COMPLIANCE**

**Community Medical Group** strives to ensure that its services are accessible to people with disabilities. Community Medical Group has invested a significant amount of resources to help ensure that its website is made easier to use and more accessible for people with disabilities, with the strong belief that every person has the right to live with dignity, equality, comfort and independence.

- Accessibility Features of this Web Site
- Consistent navigation. Extremely important for accessibility, consistency is maintained with main navigation menu on the top of each page.
- Style Sheets. The “look” (formatting such as color, font-size, general layout) of the entire website is controlled by style sheets. As a result, users have the option to alter this website’s appearance by substituting their own style sheet. For example, a person with a specific type of color blindness may substitute their own style sheet to alter this website’s color scheme to accommodate their needs. Style sheets also reduce coding clutter which enhances ease of navigation when using screen reader software.
- Relative Font Sizes Using Percentages. Unlike fixed-sized fonts, percentage fonts automatically adjust relative to their context. For example, if a user chooses to view entire page at a magnified level, each font percentage will adjust proportionately.
- Alt Tags. Graphics have a text description (called Alt Tag) accessible to assistive software.
- Highest industry coding standards. All coding of website meets the highest specifications of World Wide Web Consortium (W3C) XHTML standards.

### **Enabling the Accesibility Menu**

The communitymedicalgroup.com accessibility menu can be enabled by clicking the accessibility menu icon that appears on the corner of the page. After triggering the accessibility menu, please wait a moment for the accessibility menu to load in its entirety.

**Disclaimer**

Community Medical Group continues its efforts to constantly improve the accessibility of its site and services in the belief that it is our collective moral obligation to allow seamless, accessible and unhindered use also for those of us with disabilities. In an ongoing effort to continually improve and remediate accessibility issues, we also regularly scan [www.communitymedicalgroup.com](http://www.communitymedicalgroup.com) with UserWay's Accessibility Scanner and WAVE's Accessibility Scanner to identify and fix every possible accessibility barrier on our site. Despite our efforts to make all pages and content on [communitymedicalgroup.com](http://communitymedicalgroup.com) fully accessible, some content may not have yet been fully adapted to the strictest accessibility standards. This may be a result of not having found or identified the most appropriate technological solution.
